**Re: Proposed aluminium swing entrance doors and toplight**

Dear Deborah,

As promised, I am pleased to attach our quote for the installation of a new ALUK commercial aluminium swing entrance door to the aforementioned property. I have also included the option of an electronic strike wiring system, which will require installation of the push pad by an outside company post installation. Lastly, the new doors will include a toplight to reduce the door height, to resolve the twisting issue you currently have. The designs are attached, and the specifications are as follows:

ALUK commercial aluminium entrance doors and toplight with swing function (opening both inwards and outwards). Non thermally broken. White finish inside and out. Clear toughened safety glazing throughout. 2 hook locking system. High security thumb turn cylinder. 2 x pad handles in white finish. Wheelchair compliant low aluminium threshold. Hold open gas closer. Traffic door to left (when viewed from inside).

**SUPPLY AND INSTALL ALUK COMMERCIAL ALUMINIUM ENTRANCE DOORS AND TOPLIGHT WITH NO ELECTRONIC STRIKE:**

**NET TOTAL:           £4390.00**  
**PLUS VAT:            £ 878.00**  
**GRAND TOTAL:       £5268.00**

**NB: The additional cost to include choice of 12v/24v electronic strike wiring system, concealed in the door frame is £500 + VAT. Please note that this is only compatible with a 1 hook locking system, and will require wiring in by the customer.**

We include a 10 year insurance backed guarantee to cover the installation. As a family run business with over 25 years of experience, we are proud to be Herts County Council trading standards approved, as well as a Which? Trusted Trader.

I hope that you find the quotation competitive. Please do not hesitate to contact me if you have any queries.

Yours sincerely,

Joe Pearce
